Forecast For Wales
Issued by Met Office Exeter
at 0400 on Monday 15 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Fog lifting but staying grey and gloomy with patchy drizzle.

Today:
Mist and fog in the east slowly lifting. However, skies remaining largely cloudy with light rain and drizzle at times through the day, especially in the north and west. Not as mild as over the weekend but winds remaining light. Maximum temperature 13 deg C (55 deg F).

Tonight:
Staying mild and at times damp overnight with low cloud, mist and hill fog across Wales. Occasional periods of light rain and drizzle, but tending to become drier later. Minimum temperature 4 deg C (39 deg F).

Tuesday:
Low cloud, mist and hill fog at first, but slowly brightening up with a few glimmers of sunshine in places. Some rain moving southeast overnight and becoming breezier. Staying mild. Maximum temperature 13 deg C (55 deg F).

Outlook for Wednesday to Friday:
Brighter and somewhat cooler on Wednesday with sunny spells. Cloudier and milder on Thursday and Friday, with patchy rain and drizzle, mostly over higher ground.
